

MINNESOTA TECH FOR SUCCESS

Week 5- 7: Software &
Operating Systems

11/20/2024

Agenda

- **Announcements**
- **Classroom (1 – 1:30pm)**
 - Software & Operating Systems: Chad
- **Break (5 min)**
- **Classroom (1:35 – 2:30pm)**
 - HTML/CSS: Esther
- **Break (5 min)**
- **Warehouse (2:35 – 3:30pm)**
 - External Cleaning

○

ANNOUNCEMENTS

+
○
•

Announcements for 11/20

- **Schedule:**

- No Session Wednesday, 11/27 – Fall Break (11/27 – 12/2)
- Session on Wednesday, 12/4

- ***Week 5-7: Software and Operating Systems***

- *November 20th; December 4th & 11th*

- Media Release forms

EXPECTATIONS

Expectations – Work Conduct

- **Communication**
 - Monitor language – no swearing/cursing, toxicity
 - Monitor actions – no harassment or bullying
- **Physical Contact**
 - No touching, hugging – respect boundaries
- **Help, support and encourage one another**
- **Office & Warehouse**
 - Clean up work areas and properly dispose of food & beverage containers
 - Please Recycle

Expectations - Attendance

- **If you will be late or miss a session:**
 - **Please send an email to – Chad**
 - **Include:** Reason and when you expect to be on site
 - **Reminder:** This is an official work internship at a professional organization. Inform MTFS ASAP if/when you are going to be late or be out for the day.
- **MTFS**
 - Tracks attendance and work hours
 - Sends attendance list to Great River School

Values

- **R**espect
- **A**ccountability
- **I**mprovement
- **S**teadfast
- **E**ncouragement

SOFTWARE & OPERATING SYSTEMS

Week 5

Software & Operating Systems: Objectives

1. What is software?

- Explanation of software, its role in computing, and the various types of software, including applications and operating systems

2. Basics of operating systems

- Fundamental functions of operating systems and how they interact with hardware

3. How to install and use software

- Guide on how to install and use software applications on a computer

4. Simple software troubleshooting

- Basic troubleshooting steps for software-related issues, such as resolving software crashes.

What is Software?

- **Software:** Instructions that tell a computer, electronic device, or system what to do
- Collection of programs, procedures, and routines associated with the operation of a computer system
- Written in a programming language – executed by a **CPU**

What is Software?

```
15
16 const LOCALE = globalThis.navigator.language
17
18 const div = document.body.appendChild(document.createElement('div'))
19 const list = div.appendChild(document.createElement('ol'))
20
21 const dayNames = new Map()
22
23 for (let i = 0; i < 7; ++i) {
24   const d = Temporal.PlainDate.from({
25     year: Temporal.Now.plainDateISO().year,
26     month: 1,
27     day: i + 1,
28   })
29   dayNames.set(d.dayOfWeek, d.toLocaleString(LOCALE, { weekday: 'long' }))
30 }
31
32
33 for (const num of [...dayNames.keys()].sort((a, b) => a - b)) {
34   list.appendChild(Object.assign(
35     document.createElement('li'),
36     {.textContent: dayNames.get(num)}
37   ))
38 }
39
```

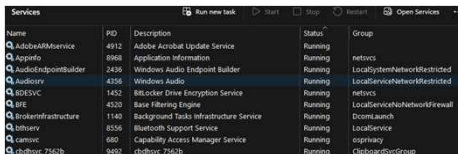

- **Program** - a specific set of instructions designed to accomplish a particular function or task through a programming language
- Software can be made up of multiple programs and programming languages
 - Windows: C++, kernel is in C
- **Kernel** - core part of an operating system (OS) that manages system hardware resources
 - Acts as a bridge between **software applications** and the **computer's hardware**

3 Types of Software

System

- Internal functions through OS
- Controls peripherals

Name	ID	Description	Status	Group
AdobeUpdateService	4912	Adobe Acrobat Update Service	Running	
AppInfo	8968	Application Information	Running	netwsvcs
AudioEndpointBuilder	2436	Windows Audio Endpoint Builder	Running	LocalSystemNetworkRestricted
Audiodg	4294	Windows Audio	Running	LocalSystemNetworkRestricted
BDIDEVC	1452	BitLocker Drive Encryption Service	Running	netwsvcs
Base Filtering Engine	4320	Base Filtering Engine	Running	LocalSystemNetworkFirewall
BackgroundTasksInfrastructure	1140	Background Tasks Infrastructure Service	Running	DcomLaunch
BluetoothSupportService	8256	Bluetooth Support Service	Running	LocalService
CapAccessManager	680	Capability Access Manager Service	Running	osppresvc
ClipboardGroup	8402	ClipboardGroup	Running	ClipboardGroup

Application

- Execute commands by the **user**
- Any program that processes data

Network

- Coordinates Communication between computers linked in a network

Operating System

- **Operating System (OS)** software that manages and controls a computer's hardware and software resources
- Allows user to interact with computer
- Most of the time, several different computer programs running at the same time
 - Access computer's CPU, memory (RAM), and storage (SSD/HHD)
- Provides interface between hardware, application software, and user

Software Interaction

Question:

Can you navigate around your OS using only a keyboard?

+

+

•

ACTIVITY: SHORTCUTS

Windows 11

Shortcuts - Tasks

1. Quick Link menu - Press:  + X
2. Select: **Task Manager** (or press: "T")
 - Optionally, Press:  + R, Type: taskmgr
3. Answer:
 1. How many applications are running?
 2. What % of CPU, RAM and Storage are in use?
 3. Bonus: Press:  + [Pause/Break]
 1. What is the make & model of your laptop?

Shortcuts - Navigation

1. Display & Hide Desktop - Press:  + **D**
2. Search - Press:  + **S**
3. Switch tabs - Press: **[Alt] + [Tab]**

Question:

Can you navigate
around your **OS**
using only a **Mouse**?

Activity: Shortcuts – On Screen Keyboard

1. Accessibility - Press:  + U
2. On Screen Keyboard - Press:  + [CTRL] + O
3. Lock Screen - Press:  + L

Activity: Other Helpful Shortcuts

1. Quick Settings – Press:  + A
2. File Explorer - Press:  + E
3. Screen Cast - Press:  + K
4. Screen Shot - Press:  + **[SHIFT]** + S

DESKTOP OS MARKET SHARE

Windows

73.41%

OS X

Linux

4.31%

Chrome OS

2.12%

FreeBSD

0%

Desktop Operating System Market Share Worldwide - October 2024

OS MARKET SHARE

Troubleshooting Methodology

1. Identify the problem

- Gather information from the user, identify user changes, and, if applicable, perform backups before making changes
- Inquire regarding environmental or infrastructure changes

2. Establish a theory of probable cause (question the obvious)

- If necessary, conduct external or internal research based on symptoms

3. Test the theory to determine the cause

- Once the theory is confirmed, determine the next steps to resolve the problem
- If the theory is not confirmed, re-establish a new theory or escalate

4. Establish a plan of action to resolve the problem and implement the solution

- Refer to the vendor's instruction for guidance

5. Verify full system functionality and, if applicable, implement preventive measures

6. Document the findings, actions, and outcomes

BREAK

5 minutes

Agenda

- **Announcements**
- **Classroom (1 – 1:30pm)**
 - Software & Operating Systems: Chad
- **Break (5 min)**
- **Classroom (1:35 – 2:30pm)**
 - HTML/CSS: Esther
- **Break (5 min)**
- **Warehouse (2:35 – 3:30pm)**
 - External Cleaning

Activity – Life and Technology

Answer the following questions about:

1. Yourself
 - Hometown, family, and ethnic background?
 - Interests & hobbies, talents?
 - Any clubs/organizations you are a part of?
 2. What got you interested into IT/technology/computers?
 3. What are you looking to get out of your internship?
 4. What are your life and career interests & goals?
 5. Go to indeed.com
 1. Find an IT role/job you are interested in
 2. Include the following:
 1. Title, responsibilities, salary, experience/education/certification requirements
- Email – Chad at cphaengdara@techforsuccess.com
 - Due by: Wednesday, 12/4
